

Module 4

Reduced Mobility

A ERIC
ARSENAULT
ARCHITECTURE

description

ARCHIPEL raises the question of housing in its fundamentals: position, location, size, equipment, autonomy, and comfort. The project offers to live well with less surface area.

Everything is in place for complete autonomy for a person using a wheelchair: access to the bed, the kitchen, the toilets, the wardrobe, etc.

Floor Plan

Module Composition

- Fully equipped kitchen
- Bathroom
- Double bed
- Passive solar natural heating
- Double bay window
- Outdoor patio
